

Matteo Isabella

Product designer

Experience

2025-
2026

Logitech, Lousanne – Remote

Master's thesis project, exploring standalone concepts and UX redesign opportunities. Leading end-to-end design process from initial concept through comprehensive user research, interviews, and iterative prototyping validation.

2025-
2026

Philips, Amsterdam

Contributed to premium multi-shaver case and attachments design addressing compactness, part handling, and material constraints. Executed iterations incorporating user testing feedback, created prototypes and 3d visuals.

2023-
2024

5VIE network, Milano

Graphic Designer, exhibition installer, gallery guide, event organizer for Design Week 5VIE district.

Education

2024-
ongoing

TU Delft

Master's degree in Interaction Design

2021-
2024

Politecnico di Milano

Bachelor's degree in Product Design

Languages

Italian Native language

English Fluent – C2

About me

I'm a product designer passionate about solving real-life problems. I thrive working on physical products where design constraints become creative opportunities.

I enjoy immersing myself in a wide range of creative projects always taking something from each passion and bringing it into my design process.
